# Harmony Grove begins to take root

Posted on January 31, 2018

Since opening in 2006, Bridgeland has been developing a community where three thousand households and counting now call it home. By nature, a master

planned community offers housing options for various types of people at different stages of their lives. In many instances, young couples and new families buy their first home in Bridgeland and make the decision to move up to a larger home as their family dynamics and spacing needs change. On the other hand, established families also move into Bridgeland, raise their children and see them off to college. They then make the decision to purchase a smaller home that offers them a lower-maintenance lifestyle as they prepare for retirement.

Regardless of what stage in life you may be, Bridgeland has been thoughtfully crafted to offer the perfect neighborhood and home to meet your needs. Bridgeland's newest neighborhood, [Harmony Grove](#), is a primary example of a housing option tailored to meet the demand of a specific niche within the market.

Harmony Grove will showcase [Beazer Homes](#)' newest product that offers Modern Farmhouse and Modern Craftsman townhomes, which is a unique architectural style that is currently not being offered anywhere else in the Cypress area. The neighborhood will be nestled behind sculpted landscape berms and trees providing a private setting for the residents of Harmony Grove.

As the final neighborhood to be built in Lakeland Village, Harmony Grove will offer a low-maintenance lifestyle, architecturally diverse streetscapes, and will be within walking distance of both [Lakeland Village Center](#) and [Lakeland Activity Center](#). This lifestyle offering will be a perfect choice for those who find themselves needing a less-spacious home, but still want all of the upscale
